

## EMAIL PROTECTION

Few organisations can manage without a secure and reliable email system. Our Email Protection service stops spam blocking up your system and wasting valuable staff time. Better still, if your email server goes down, you can continue to send and receive new emails, reducing downtime to a minimum.

### What is Email Protection?

Connect's **Email Protection** service protects your organisation from unwanted spam, viruses and malware. The system works by filtering all incoming email and removing unwanted messages before they affect your system. By reducing the quantity of unwanted email, it protects your Internet bandwidth and email infrastructure.

**Email Protection** stores the past 30 days of historic email to give you instant access to old email. This also allows all your employees to continue sending and receiving email if your server goes down.

Better still, prices start from as little as £43 a month for enterprises with under 10 staff. To find out more information, just log on to [http://www.connect.co.uk/services/email\\_protection](http://www.connect.co.uk/services/email_protection).

### What does Connect's Email Protection offer?

> **Anti spam filtering.** With spam making up over 90% of all email, it has never been more important to have a reliable and robust filtering system to stop unwanted emails blocking up your system - and wasting staff time.

> **Storing old email for the past 30 days...or more.** **Email Protection** stores 30 days of historic email so you can read and respond to old emails if there is a problem with your system.

> **Continue emailing whatever happens.** If your server goes down or your office is out of action, **Email Protection** allows all your staff to continue sending and receiving emails from any location immediately.

> **Defend against virus attacks.** Email protection stops viruses, trojans, phishing, other malware and converging threats from reaching your network.

### Who are Connect Support Services?

Connect Support Services is one of the UK's leading IT services companies with more than 300 clients across the UK. Connect has been providing first class IT support to companies and organisations since 1993. Based at Canary Wharf in London, we have an IT helpdesk team helping hundreds of customers supported by a team of engineers based around the UK and abroad. Connect pioneered the development of fixed price IT services to remove the risk from technology. Email Protection is one of a range of services developed to help take the hassle out of IT. It's a personal service to make technology work for you.
